

Product	ELATION	RELIANCE
Objective	Capital Growth & Income	Social Impact
Description	This private equity product offers the investor the opportunity to access superior returns and capital growth that outperforms traditional and alternative asset classes and at lower than market risk by investing in a stable growth asset class in a niche industry. Distributions can be paid out, or, reinvested on election by the investor.	This private equity product works with the investor in an environment where others depend on you and is an extension of the Elation product. This product has the ability to make the difference in people's lives in local communities, but has the power to effect global change. This product enables the investor to plan and meet their Social Impact Investment Goals.
